

K-Love is a very important radio station in my life. K-Love serves as a resident of the local community here. Many people listen to K-love all the time. K-love is not a radio station with a 'punk' dj blasting whoever and whatever he wants....K-Love is a 'safe, family friendly' radio station. K-Love plays music that I and many other enjoy. It inspires me to live my life better for God. If K-Love would disappear than my area would not have a safe family friendly radio station to listen to. There are no stations in my area beside K-Love that play this music. Without K-Love I would give up on all radio all together and just listen to my cds in my car and in my home. K-Love doesn't just play music. K-Love has an important message that has helped hundreds over the years. Many people have found Christ through K-Love and are inspired to live better lives. K-Love reaches out to communities and countries in need of help and with listener support they help people. I believe that K-Love serves the public interest by providing their positive message of hope and love. Without K-Love there would be no reason for radio to even exist.
